Summer 2010

Hello my friends:

As Supervisor of White Lake Township, I can boast that this 36 square mile area has over one third of open space, which includes wetlands, parks, rivers and 21 lakes. Although construction is in progress, we do strive to maintain our natural environment and rural ambience as much as possible.

I am proud that *Quake on the Lake*, once more, will be held on Pontiac Lake, which is primarily situated in White Lake Township. This function not only is a major contributor to the Rainbow Connection, which makes dreams come true for Michigan children with life-threatening illnesses, but it benefits numerous local businesses, their employees and also the economy in general for the State of Michigan.

Record attendance for this family-oriented event is expected this year, which will stimulate interest in our beautiful locale as well as benefit the charities supported. I extend my appreciation to the organizers of this event who work tirelessly to assure all attendees an experience that will create lasting memories and a desire to return year after year.

I passionately support *Quake on the Lake*, which takes full advantage of one season of our beautiful "Four Seasons Playground". Championship races, water sports galore, family-friendly atmosphere, beautiful beaches plus benefiting charity and the economy – what more could you ask for. I hope to see you there.

Sincerely,

Mike Kowall, Supervisor
White Lake Township
